LOCAL INDUSTRIES

by Elias & Yousef Anastas

Local Industries' furniture collection is inspired by the architectural work of its creators, Elias and Yousef Anastas; it is a series of highly functional chairs and seats, designed for an international market and produced in local Palestinian blacksmiths' workshops. During the design and manufacturing process, constant communication is held between the involved parties with the purpose of breaking the gap that usually exists between conception and production. The result is pieces that fit easily into contemporary spaces, with simple yet striking and bold aesthetic properties.
