MOLCAJETE

by Carlos Torre Hütt

Manufactured with the same process used to create the traditional molcajetes, the Molcajete stool and ottoman have simple lines and their versatile function as side table or auxiliary furniture adapts to any space, indoors or outdoors. Hand carved in volcanic stone by artisans from Guanajuato, the shape of these pieces seeks to integrate a dialogue between craftsmanship and contemporary Mexican design.

CARLOS TORRE HÜTT

About

Architect, designer, museographer and curator. Far from being limited to a single dimension of the discipline, his professional work spans a broad design spectrum and responds to the concern of finding a language, by means of buildings, objects, spaces and exhibitions, that describes the habitat of the contemporary society to which he belongs.

His projects, always guided by a business vision, gravitate around the exploration and pursuit, through aspects such as materiality and craft, of an identity that represents the place and time in which he lives and develops.
